RE: Electrolux, former site of
2020 Corrective Action Universe
EPA ID # IAD0470555140

Dear Mr. Arnold:

The U.S. Environmental Protection Agency Region 7 has compiled a list of facilities deemed appropriate to address using the Resource Conservation and Recovery Act's (RCRA) Corrective Action Program. Because this set of facilities has national remediation goals which will culminate in the year 2020, it is referred to as the 2020 Corrective Action Universe. This former site of an Electrolux facility is part of the 2020 Universe because it generated, treated, stored or disposed of hazardous waste and may have releases of hazardous waste and/or hazardous constituents to the environment. As a result, the EPA expects that a final remedy will be in place (i.e., remedy construction completed) at your facility by 2020 (although actual attainment of cleanup goals through remedy implementation may take longer).

Being on this list does not imply failure on your part to meet any legal obligation, nor should it be construed as an adverse action against you. It only means that the EPA has identified your facility, and every other facility in the 2020 Corrective Action Universe, as needing to complete RCRA Corrective Action. Our national program goal is to largely address these cleanup obligations before the end of 2020.

The EPA will work to address remediation concerns at your facility in a manner consistent with your plans for the property. If you have questions regarding this letter, please contact me at (913) 551-7478.
